WHAT NUMBER ARE YOU DIALING?

OCS call logs indicate that around 10% of our subscribers in Porterville are still dialing old numbers, which remain active only for backward compatibility. These numbers are not as reliable as our primary numbers, and they are much more likely to return a busy signal. If you are in Porterville or are dialing a Porterville number, please make sure it is one of the two listed here. All OCSNET numbers end in 5900, so if you are dialing anything else it is an old number! For a complete listing of all numbers, click the icon on our home page.

ONLY AT OCS

- NO VIRUSES
- NO SPAM
- NO PORN

ALL FOR FREE

VIRUS FILTERING. A customer from another local service told us how the KLEZ VIRUS is creating havoc throughout their system. But not at OCS -- our central anti-virus system has stopped nearly 150,000 viruses from reaching our subscribers. When software costs, repair costs, and days or more of time can be lost to repair the damage caused by viruses, not to mention trying to manage ongoing defenses, imagine the value to local businesses and families in time savings alone! This service is exclusive, and free, to OCS subscribers.

SPAM FILTERING was activated in June, and the results have been fantastic. One subscriber wrote "bless you!", another "email is fun again!" We're not claiming to stop all spam, since everyone has a different view of what is considered junk mail. But most of the obvious stuff is indeed being blocked, at a pace currently exceeding 8,000 spam messages per day. This is also free, and exclusive, at OCS.

CONTENT FILTERING. Ever popped into a website that was, well, not what you expected? How about around the office, or if your kids are maybe "home alone?" Only OCS provides website content filtering, including pornography and many other options, as a free and exclusive part of our service.

MANAGE YOUR OWN ACCOUNT. To activate any of these features, just click USER ADMIN on our home page main menu, enter your login name and password, and set your preferred options ... yes, the Internet can indeed be safe, and even fun again!

WIRELESS

OCS Wireless Internet

The fastest service in town. Call

for more information, or click the

wireless button on our home page.

GET UNWIRED

Website Security

Any time you enter a section on one of our websites, or those we host, or elsewhere on the Internet -- if security is important, look for the "security lock" that identifies the site as secure. This means that the host is really who they claim to be, and that any data exchanged between your computer and that site will be encrypted as it travels over the Internet.

OCS Referral Program

If you refer a friend or business colleague to OCS, tell them to mention your name and you'll receive up to a month of free service! Some restrictions apply, click Referrals on our home page for details.

OCS was very pleased to assist with the Porterville Chamber of Commerce Building Fund. As a premium sponsor, OCS equipped the beautiful new building on Main Street with full network and high-speed wireless Internet services.
