NATIONWIDE ROAMING

Now Over 1,800 Free Numbers

Subscribers away on vacation or business travel have long used OCS remote roaming services for dialup access to their home accounts while on the road. In June, our roaming network was expanded substantially by the addition of over 1,800 free numbers from coast to coast.

Previously, free access outside the local community was generally limited to the Central Valley. Beyond that, our iPass pay-per-use service was available for national and global access, using the special iPass dialer.

Now, OCS subscribers may select from an additional nationwide network of over 1,800 free numbers when traveling. Although no special software is required, a new free dialer is available on the OCS website that includes several very handy features.

To check for available numbers in different areas of the country, just click "Nationwide Numbers" or "Access Numbers" on our website. For areas where there is no match and for international travel, our iPass pay-per-use service will remain available.

NATIONWIDE OCS SERVICE for FRIENDS • FAMILY • BUSINESS

Over the years many of our subscribers have regretted having to cancel their OCS account when moving out of town, since we had no local-number service in their new home area. This has meant leaving our superlative service and customer support behind for "the unknown."

With the addition of over 1,800 new local access numbers across the country that do not require pay-per-use fees, this dilemma has been resolved – now you can recommend quality OCS dialup service to your friends, family, and business associates across the country, and earn referral credits at the same time (so can they)!

Just check our website for number availability in other areas (see article above). To sign up, simply use the handy "Subscribe Online" procedure on our home page.

Music Labels to Sue Hundreds Of Internet Users Sharing Songs

WASHINGTON – June 25, 2003 (Associated Press) – The music industry disclosed aggressive plans Wednesday for an unprecedented escalation in its fight against Internet piracy, threatening to sue hundreds of individual computer users who illegally share music files online.

The Recording Industry Association of America, citing substantial sales declines, said it will begin Thursday to search Internet file-sharing networks to identify users who offer substantial collections of MP3 music files for downloading. It expects to file at least several hundred lawsuits seeking financial damages within eight to 10 weeks.

NEW WIRELESS CONSTRUCTION

►VISALIA

Phase One of our deployment in Visalia is nearly complete. For those familiar with the downtown area, our antennas are deployed atop the Town Meadows building at Murray and Court, the tallest structure in town. If you can see this building, high-speed wireless will soon be available!

►LINDSAY "L" HILL

The best view of Lindsay is from the top of "L" Hill, which means this is also the best location for a wireless tower. That's our newest location, and our tower there should be ready in July. This will extend service to some for the first time, and improve service to other existing subscribers.

High-Speed Wireless Internet Service is available in Porterville, Springville, Pleasant Valley, River Island, Globe Drive, Strathmore, Terra Bella, Lindsay - and coming soon to Success Valley and Visalia! Call us or see our website for more information!

OCS dialup and wireless plans are described at www.porterville.com
